PROFILE

A fresh graduate of Bulacan State University - Sarmiento Campus, with a Bachelor's degree in Information Technology and a track specialization in Web and Mobile Development. I am a highly self-motivated web developer with a passion for front-end development and UI/UX design. Have experience in creating functional websites and working with backend development. Good knowledge in utilizing popular frontend frameworks such as React. Seeking to advance in a growing tech career, continuously learn to improve my skills, and thrive in collaborative project environments.

SKILLS

• HTML, CSS, JavaScript, Sass

Skilled in creating stunning and responsive websites, with an understanding of web development concepts such as Media Queries, AJAX/Fetch API, and JSON to create interactive user experiences.

• React, Tailwind CSS, Bootstrap, jQuery

Proficient in CSS frameworks and capable of utilizing them in large projects. Possess good knowledge of building frontends with React, including Components, JSX, Props, useState, useEffect, Events, and Conditional rendering.

• PHP, MySQL

Experienced in backend development, including developing dynamic web applications and database management, integrating the frontend and backend using PHP and MySQL.

• Figma, Adobe XD, Git

Proficient in creating web design, wireframes and prototypes using Figma and Adobe XD to develop user-friendly interfaces and design principles. Learned in version control and project collaboration using Git.
